Five Basic Principles

- Ensuring Economic Vitality
- Providing Housing Opportunities
- Preserving our Environment
- Protecting Property Owners
- Building Better Communities

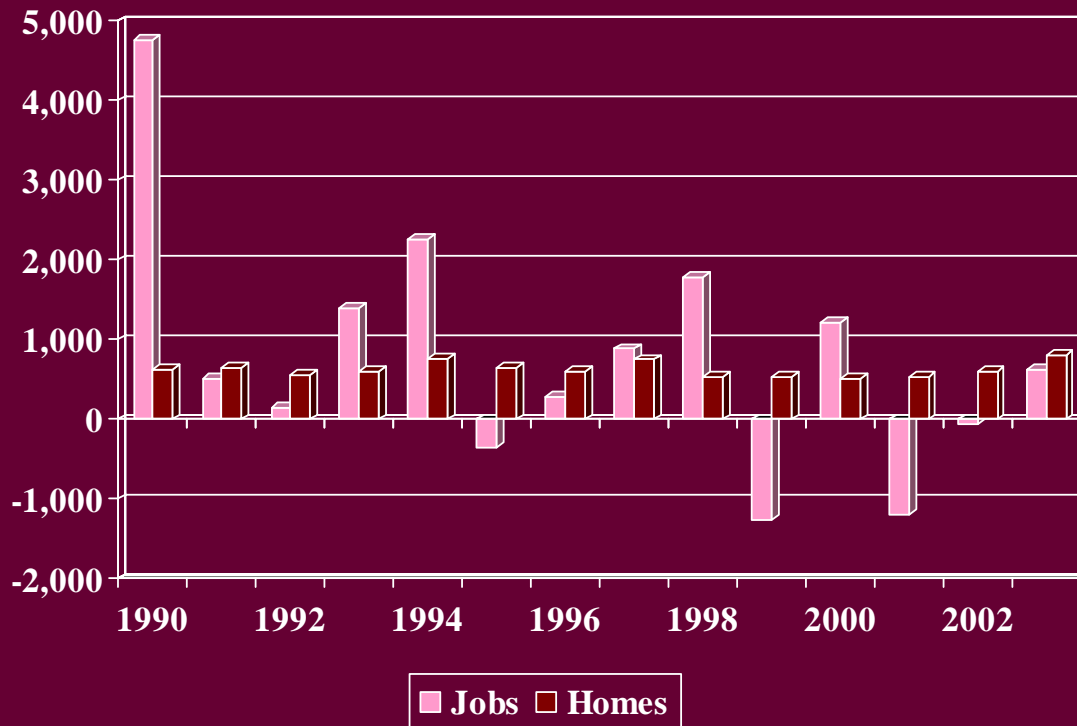

Economic Vitality

- Quality of life starts with a good job.
- The key to our quality of life is a strong economy.
- A vibrant economy creates jobs, expands the tax base, enhances and revitalizes communities.

Providing Housing Opportunities

- Quality of life means having a roof over your head.
- We all want a safe, decent, and affordable home near where we work, shop, and play.
- We must grow the supply of housing- including choices about design, cost, and location.

Jobs and Housing

Balancing Jobs and Housing

- An in-balance in jobs and housing
 - Extending commute times
 - Increase in traffic congestion
 - Increase in housing cost near job centers
